

**Joint
Analytical
Systems**

Innovative Systems and Customized Solutions

**Development. Manufacturing. Distribution.
High Quality Analytical Instruments and Systems.**

About Us

Joint Analytical Systems GmbH (JAS) is a prominent company specializing in the development, manufacturing, and distribution of high-quality analytical instruments and systems.

With a focus on innovation and customer satisfaction, JAS has established itself as a reliable partner in the field of analytical technology.

JAS Headquarters in Moers, Germany

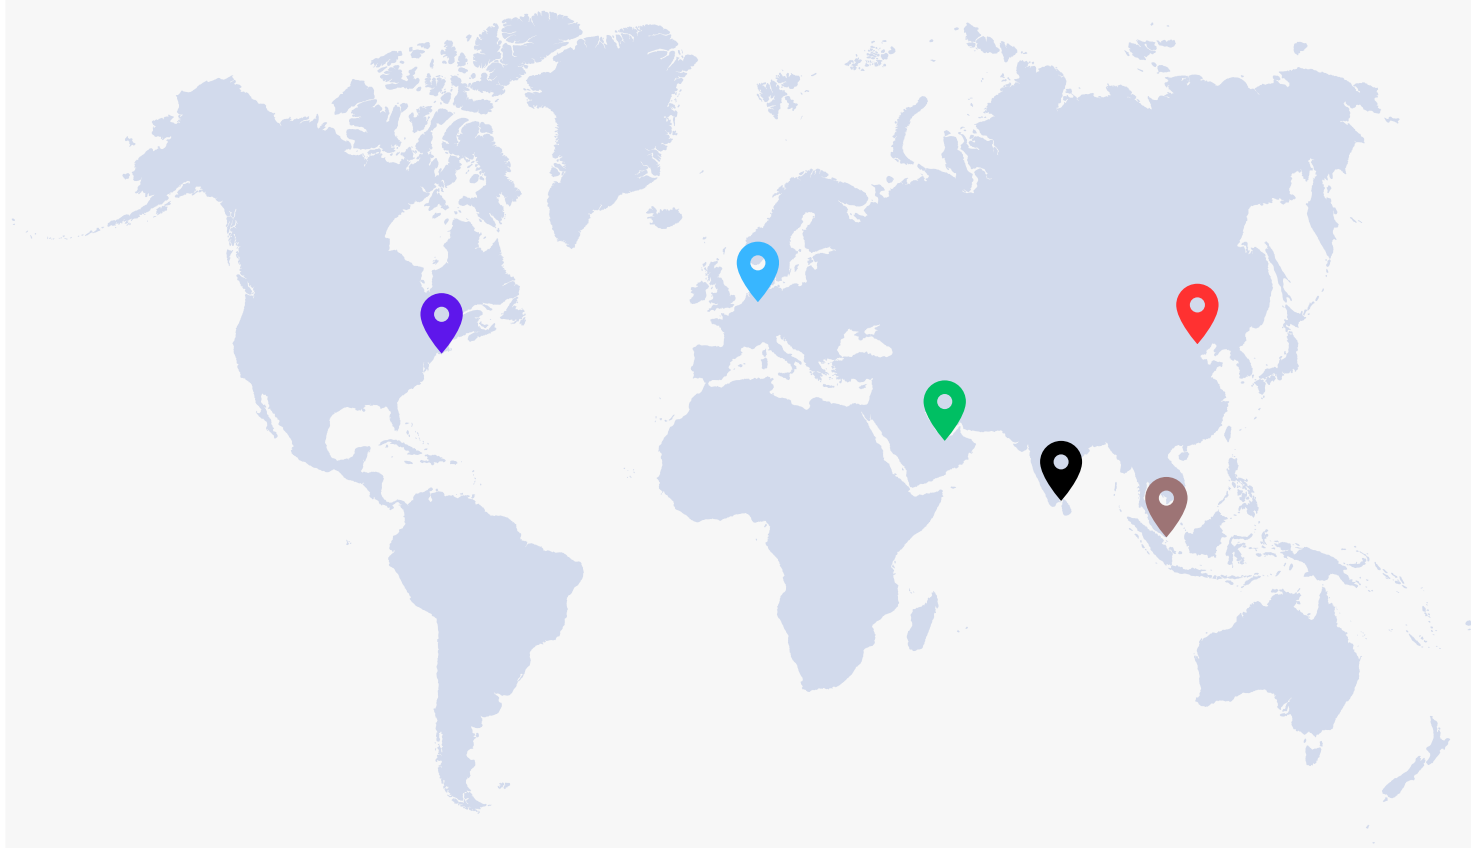

"At JAS the main focus is on customer satisfaction. Competence, quality and service are the guidelines, which conduct our actions. Through product, analytical development, and customized service, we are able to develop customer applications in our laboratory and R&D department."

Joachim Gerstel
Founder & CEO

Leading company for chromatography and spectroscopy
systems integration

Our Worldwide Sales and Service Hubs

Headquarters

Moers, Germany

United States

Newark, New Jersey

Middle East

Dubai, UAE

India

Chennai, India

South-East Asia

Singapore

China and East Asia

Beijing, China

We specialize in innovative systems and customized solutions for a wide range of applications in any field of analytical science

The JAS Infrastructure Advantage

Property
2500 sq mt

Production
400 sq mt

Warehouse
600 sq mt

R&D Lab and Office
1500 sq mt

JAS GmBH prioritizes ongoing research and development to remain a leader in analytical technology. The company funds innovative projects and partners with research institutions to create state-of-the-art solutions.

Committed to sustainability and environmental stewardship, JAS GmBH works towards reducing its ecological footprint by incorporating eco-conscious product designs and streamlining manufacturing processes.

We are partners with BASF to research wastewater treatment solutions to avoid environmental pollution

Markets For Our Analytical Instruments

Petroleum, Natural Gas
and Petrochemicals

Aromatics and
Fragrance

Material
Sciences

Pharma

Environment

Food and
Beverages

Research

The JAS Products and Services

Analytical Instruments

Gas chromatographs, liquid chromatographs, mass spectrometers, and other analytical instruments

Software Solutions

Advanced software for data analysis, instrument control, and laboratory management.

Training and Support

Comprehensive training programs and technical support services.

Maintenance and Calibration

Regular maintenance and calibration services to ensure accuracy and longevity of instruments.

We aim to create smart products that eliminate unwanted costs or simplify sample preparation.

Our Core Competencies

Chromatography

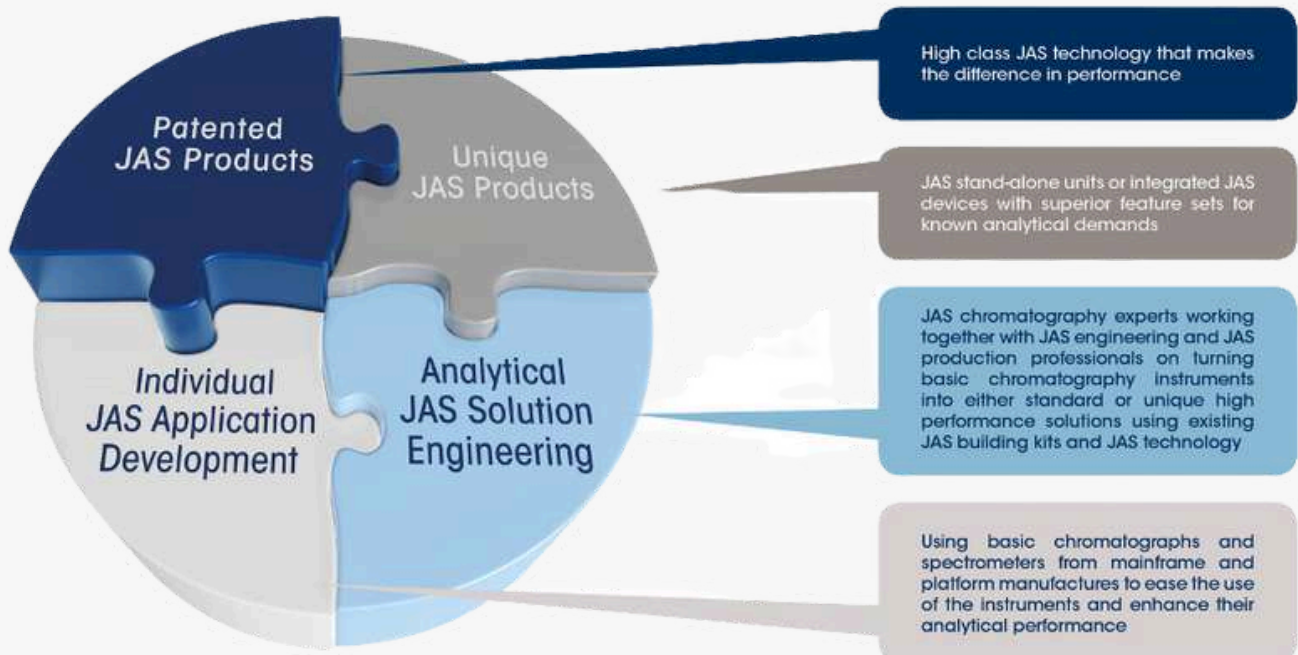

Mass Spectrometry

Automation

Custom Solutions

Our Quality Assurance

We ensure top-quality service for our customers through a comprehensive single-source solution and all-encompassing services.

ZERTIFIKAT

DIN EN ISO 9001:2015

LZG mbH certifies that the organization

Joint Analytical System GmbH
Carl-Zeiss-Straße 49
D-47445 Moers

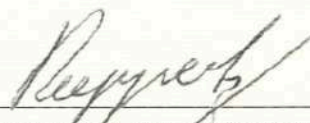

has introduced and maintains a quality management
system in accordance with the above-stated standard.

Evidence was provided by an audit report
No. R-90-416-24 provided.

Scope of application:

Development, manufacturing, service and distribution of
complete analytical measuring systems for gas & liquid
chromatography, mass spectrometry, valve solutions, as
well as laboratory automation und process solutions.

Certificate valid until: 16.03.2027
Initial certification: 17.03.2014
Certificate number: Q-90-416-24

Kevin Ruppertz, LZG mbH, Lippstadt, 16.03.2024

ZERTIFIKAT

DIN EN ISO 45001:2015

LZG mbH certifies that the organization

Joint Analytical System GmbH
Carl-Zeiss-Straße 49
D-47445 Moers

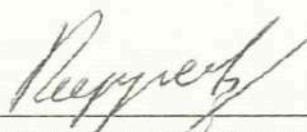

has introduced and maintains a quality management
system in accordance with the above-stated standard.

Evidence was provided by an audit report
No. R-45-416-24 provided.

Scope of application:

Development, manufacturing, service and distribution of
complete analytical measuring systems for gas & liquid
chromatography, mass spectrometry, valve solutions, as
well as laboratory automation und process solutions.

Certificate valid until: 16.03.2027
Initial certification: 07.04.2016
Certificate number: A-45-416-24
